

Welcome to the
Santa Cruz EcoTour

The City of Santa Cruz presents
a collaborative tour program,
featuring environmental stewardship
along the Santa Cruz coastline.

You'll learn about

- Generating renewable energy
- Ocean health monitoring at UCSC Ocean Sciences labs
- Preventing marine pollution
- Sea lion ecology
- Fascinating research at Long Marine Laboratory

SantaCruz ECOTOUR

**Join a guided group
or do it yourself**

Self-guided Tours

Look for the **Green Spot signs**
along the coast and the Wharf.
Scan the **QR codes** with a smartphone
for more information about each site.

Guided Tours of the Wharf

Tours leave from the Wharf Stage
at 1 and 3 p.m. on Saturdays and Sundays.
Docents from the Seymour Marine Discovery
Center lead tours rain or shine. See expanded
Wharf inset inside for more information.

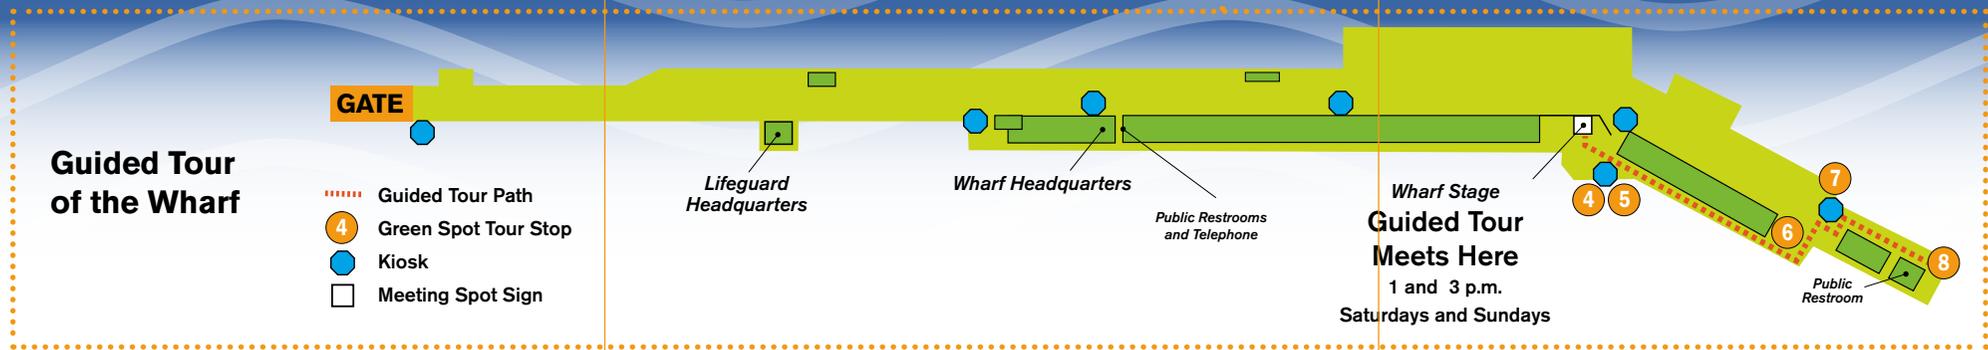

UNIVERSITY OF CALIFORNIA
SANTA CRUZ

SantaCruz ECOTOUR

Walk, bicycle, or drive 5.5 miles along the beautiful Santa Cruz coastline and learn about environmental stewardship!

- 1 Visit the Seymour Discovery Center and dive into marine science.
